linkedin@miglen.com | linkedin.com/in/miglen | miglen.com

Chief Information Security Officer (CISO) at Evrotrust and cybersecurity leader in Bulgaria, with over 15 years of experience across cloud security, fintech, and regulatory compliance. Previously at AWS and Payhawk.

PROFESSIONAL EXPERIENCE

Chief Information Security Officer

May 2025 - Present

Evrotrust

Sofia, Bulgaria

Leading the information security, compliance, and platform team. Driving the strategy that protects the digital identity and trust-service ecosystem, ensuring alignment with eIDAS and global standards while enabling secure growth and innovation.

President

Jan 2024 - Present

Bulgarian Cybersecurity Association

Sofia, Bulgaria

Chairing the Board of a nonprofit professional association that connects businesses, academia, public institutions, and the cybersecurity community to strengthen cyber resilience in Bulgaria.

The association's public work includes cybersecurity education and awareness, youth skills initiatives such as CyberStrong Youth, and its participation in CYBERsecurity 4 All STAKEholderS, which supported training, consulting, and testing for SMEs and public organizations.

VP of Information Security

Dec 2021 - May 2025

Payhawk

Sofia, Bulgaria

- Built the information security program from the ground up and led work on PCI DSS, ISO 27001, SOC, and Electronic Money Institution (EMI) licensing requirements.
- Established a security culture, hired and developed the team, and drove innovation and operational efficiency.
- Supported the company's growth to unicorn status and beyond.

Lead Security Engineer

Dec 2020 - Dec 2021

Dext (Receipt Bank)

Sofia, Bulgaria

Served as the company's sole cybersecurity professional and built its DevSecOps and application security (AppSec) practices.

PROFESSIONAL EXPERIENCE - CONTINUED

Senior Security Engineer

Nov 2015 - Dec 2020

AWS Managed Services (Sentinel)

Dublin, Ireland

- Founding engineer for AWS Managed Services (AMS), implementing the security program, building security tools, and handling incident response.
- Interviewed hundreds of candidates globally and worked with leadership to hire and grow the team.
- Provided security updates to leadership.

Technical Team Lead

Apr 2013 - Nov 2015

Hewlett-Packard / HPE

Sofia, Bulgaria

Led a team responsible for application and system administration, serving enterprise customers.

DevOps (Network, System Administrator & Web Developer)

Jul 2010 - Apr 2013
